

## Comprehensive Estate Agency Solution

This solution provides an Estate Agency with a complete system for displaying properties on the internet via their own Company website. It comprises a database driven website and a Website Manager tool, which enables the website owner to add and edit the properties on the website. This system is suitable for Residential, Commercial, Sales and Lettings.

### Features:

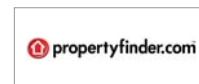

- Totally web based
- Property of the week feature
- Featured properties function
- Add unlimited number of Properties to this system
- Add an unlimited number of images to each property
- Property Details page - unlimited pictures & full details
- Full Search Facility and Area Lookup
- Property portal uploads.

- Track website hits and activity for your properties.
- Updatable news section on home page
- Updatable pages for all company details
- Add and edit property details with 'one click' publishing
- Easily usable by any computer novice
- Fully Managed Hosting, Backup and support.
- Overnight portal exports

RWGO Website Manager tool is a piece of software that runs behind the website and enables adding & editing of properties on the website. The property details are added through a simple editor and fill in forms. The tool provides check boxes for features such as Featured Property, New Arrival, Under Offer, Sold etc. making managing the website easy.
